Aware, that tourism is among the largest of revenue and an integral part of National and County Economy; Further Aware that, Isiolo County generates its Major part of its revenue from the wildlife sector; Appreciating that the game reserves and parks are the wheel behind this revenues; Worried that these parks are not well surveyed and planned and therefore compromising the security of visitors due to poor accessibility of different park corners by the rangers; Concerned that this lack of planning is also likely to reduce the land allocated for such facilities in future due to encroachments and also scare tourists away from visiting the parks; This County Assembly urges the County Executive Committee Member for Tourism, Trade, Cooperative and Enterprise Development to fast track the process of creating road cutline round all the park boundaries for proper demarcation to improve surveillance and consequently enhance the park security and revenues from the park.
